

# Year 11 - Careers

In PSHEE lessons, students explore Post-16 and Post-18 opportunities: prepare for college, sixth form and/or apprenticeship applications by writing Personal Statements and CVs, and learning about interview technique.

Students learn about rights and responsibilities at work and have the opportunity to undertake up to a week's Work Experience during the October half-term.

The school welcomes representatives from the National Citizen Service (NCS) to deliver a presentation to students about the rewards of volunteering.

Students and parents are invited to attend Autumn and Spring Term Careers Fairs involving a number of local employers, education and training providers. The school hosts its Sixth Form Open Evening for Post-16 Choices.
