

ITV Anglia News

Thursday 14th October

ITV News Anglia

ITV contacted the school asking if would be OK to come and have a look around the schools allotment. They were doing a piece on “Food for the Future”.

Year 8 students and Team Green students got involved with many different aspects of the morning, being on camera, demonstrating the skills that they have learnt.

ITV Anglia News learnt of our project through our social media outlets on twitter.

Matt from the Papillon Project support the morning and students got hands on experience from him.

It was meant to air on Friday 15th October, but due to other events happening, it has been put back to this week sometime.

**Jack from Team Green
talking to the camera.**

**6th formers and year 8
students supported the
morning.**

Year 8 students got involved on and off the camera, making sure the allotment was safe.

Year 8 students Oscar & Sam who didn't want to go on camera, were brave enough to say something about the allotment

**Year 8 students
supporting the project and
learning new skills.**

**Lots of hard work de-beaning
the pods of beans ready to sell
at Open evening.**

Harriet being very brave by standing in front of the camera by herself
