Key:

- KS4 TG – Is their Target Grade for Year 11
- WAG – Working At Grade. This is derived from recent assessments.
- Teacher Predicted Grade – Is the predicted grade that the student will achieve at the end of their course.
- Due to higher Teacher absence, some Students may have missing data. If data is missing then a progress comment would be input by a Teacher who shares the class. If the student was absent for assessments, this is recorded in the comments.

Students and staff have worked hard to complete assessments but there may be instances where assessments have not been completed. Students may be given the opportunity to catch up on missing assessments when possible. Please contact the Head of Year if you have any concerns or questions.

The outcomes of termly tests and how to improve can be discussed during parents evenings, but if you are concerned at any time then please contact the school to arrange a discussion about the concerns you may have.

Parents and guardians have “real time” reporting of student behaviours through the Class Charts App for both positive and negative events.
